From December 6, 2019 to Sept 13, 2022 Litaisha Ramus
did not address several of my medical conditions
resulting in conditions worsening and resulting in
transportation to Emergency Room on two separate
occasions. One incident was a mental health episode
that resulted in emergency room care. The other
was a dental abscess that went neglected. Another
medical condition that went untreated and monitored
upon numerous requests to do so was the monitoring
and controlling blood sugars due to diabetes. Additionally
prior to entering jail I had a small abdominal hernia

and was not allowed my abdominal binder, my hernia exponentially grew, now requiring even a bigger/longer surgery. I had small plantar warts that went left untreated for so long that I had to go have them scraped/scalped out resulting in multiple treatments then became infected when refused to give me band-aids/antibiotic ointment as the foot doctors instructions said to. Another medical condition that went neglected was I was not given glasses or taken to eye doctor until after 2 yrs of being there informing them that I needed glasses, not to mention my eyes should have been monitored also due to my diabetes. I was also refused for any and all booster Covid vaccines. Stating time and time again 'boosters' were not given or available to Racine County Jail. I contracted covid three times while there. Additionally, my requests on tests for my heart went ignored even after my visit to the emergency room. My heart had not been ruled out as a factor. The emergency room

believed it to be a anxiety attack. They still instructed the Jail should Follow up with regulatory/ monitoring my blood sugars because they tested so high. They also said they need to address my mental health. Upon repeated requests letting Latisha know there was something wrong with my heart that I needed further heart testing she refused repeatedly. months later she eventually allowed someone to come in and do a x-ray (echo) of my heart and go out to do a stress test. By time the x-ray came back I was told something didnt look right and wanted me to go out to the cardiologist. A week or Two later I was transported to Taycheedah Correctional Institution. So I was unable to go have the results given to me. Additionally, About August 2022 the Shower continued to over flow into the day space resulting in me slipping and falling with all my body weight landing directly on my right knee. Medical came to see me and told me I'd get ibuprophanadice. That they would have it x-rayed the following day. It swelled and bruised and went neglected with no care or x-ray after day of Fall. The second week of September after continuous complaints they finally x-rayed it but again I was transported to Taycheedah Correctional Institution without results. Additionally, I had injured my arm in 2020 while incarcerated by boxing a wall. I had advised medical later that year that I believe I permanently did damage and how horrible the pain had gotten worse. I requested time and time again for MRI. They eventually had the MRI done yet I told them they didnt take A MRI of the right Area. It went ignored along with my pain. I am now going through physical Therapy here at TCI so I can have a MRI of the Area that should have had the MRI. Since I arrived at TCI on Sept 11 2022, Han has repeatedly requested

From Racine County Jail medical. A copy of results on the following:

Heart x-ray (echo)

Abdominal Hernia ultra sound

X-ray of right knee.

As of April 17th, Racine County Jail (mend medical) has not sent anything as requested.

Lisha Ramus is the responsible party for all the medical conditions worsening and not being treated because she was the only acting NP that had to make any and all decisions.

Dr. Leonard Todd is responsible for all medical conditions worsening and not being treated because he was the overseeing Doctor of

Lisha Ramus. Sheriff Christopher Schmalzing is responsible for my medical conditions worsening and not being treated because he is responsible for his contracted mend medical, medical staff.

I hand wrote two to three letters to

Sheriff Christopher Schmalzing via paper requests.

I'm requesting that it be court ordered that

Racine County Jail/mend medical send the results of my heart x-ray (echo), ultra sound of abdominal hernia, and x-ray of knee. I'm

also requesting the discharge/diagnosis papers of both emergency room visits from Racine County Jail in 2022. Additionally I have been requesting for months from Racine County

Jail Records, as well as before I left, a copy of 'all' medical requests AND grievances via the Request manager from 1-1-2021

to 9-13-2022. Could this also be court ordered due to the fact the request manager is the record of all dates and descriptions of all medical requests and complaints. They

ignore all my requests. I forgot to mention I'm still in pain from Hernia, right knee and upper right arm. Resulting in physical therapy and in future (after physical therapy) having

Pin's done on knee and correct area of upper arm.
